Wheat Pool Meeting.

An audience of about 70 persons listened attentively Thursday night to the addresses made on wheat pool matters at the Moose hall by Messrs Grafton and Sherratt.

The latter gentleman, who is the delegate of the Alberta wheat pool for district No. 5 (in which Stony Plain is located) gave a resume of the proceedings at the last convention at Calgary of Pool delegates, reading from a long list of resolutions which had come before the convention.

Mr P. E. Sherratt, a Field Service man for the Pool, whose activities cover the area north of the North Saskatchewan river up to Peace river, then gave the main address, which covered the principal moves made by Central Selling Agency for the past few years. He stated, as has already been printed, that a last payment of 134c has been declared on the 1928 crop. The statement read regarding the 1929 crop was not so good—the initial payment on this crop having been set by the Board at a figure which was not warranted by subsequent events. The Alberta wheat pool, in living up to its contract with its members, was now facing an indebtedness amounting to some five and a half million dollars, from what could be gathered from the speaker's remarks. The members who received their payments in the 1928 crop will, it is surmised, be required to make good this amount. Those who have the 134c coming to them from the 1928 crop will have this applied on the 1929 deficit.

Some discussion took place on the 100 per cent compulsory Pool. In this matter, it was stated a straw vote will be taken among the members of the wheat pool locals in Alberta to determine the feeling of members on the subject. If it be shown the members are unanimous in demanding the 100 per cent pool, the directors of the Pool will petition the Provincial government to have such action taken as will place a law to this effect on the statute book.

Stony Plain Wheat Pool Local

During the discussion among those present at the wheat pool meeting last week, in Stony, it developed that there is, or has been, a wheat pool local in town, here. This news came as quite a surprise to many present, but when Mr Sherratt produced a comment from his portmanteau it was shown that there was such a local on the books at head office, with Mr W. M. Washburn as the secretary designate. On motion, it was decided to reconstitute this local, and a meeting with this object in view will be held in town, on Tues. Jan. 6th. Mr W. M. Washburn is said to be chairman of the Alberta wheat pool local at Edmonton.

Canada's Markets Abroad

The securing of markets abroad for the products of Canada, whether these products be in the form of foodstuffs, raw materials, semi-manufactured or fully manufactured articles, is one of the biggest tasks confronting not only the Federal Government, but farmers, producers, manufacturers, individually and collectively. It is safe to say that the Government of Canada, quite apart from the fact whether it be, for the time being, administered under Liberal or Conservative auspices, is sincerely anxious to develop existing markets and to secure an entry into new ones.

The task is a difficult one at all times, and particularly so just now in view of existing world economic conditions. Yet because of these very conditions it is all the more imperative that the maximum effort be put forth.

Canada is a young country, with, considering its vast extent of territory and variety of resources, a comparatively small population. As a result, in almost every line of activity and industry, this Dominion is not only capable of producing, but is actually producing, an enormous surplus over and above what our own people require or can purchase and consume. The domestic market alone cannot, therefore, keep the people of Canada busy and make them and their country prosperous. Canada must have foreign markets in which to sell, and those markets must be continuously developed in order that the steadily expanding production of the Dominion may be profitably sold.

This situation for Canada is no new thing and has been engaging the attention of Governments at Ottawa for many years. It will be of interest to people generally to know how energetically and effectively the work of securing and developing markets for Canada in other lands all over the world is being prosecuted, through the offices of trade commissioners.

These Canadian trade commissioners abroad are credited with being largely responsible for the phenomenal development of the Dominion's foreign trade within the past decade.

During last year the field staff obtained millions of dollars' worth of new business, arranged for 864 new agencies and submitted 4,345 reports to Canadian firms—all without charge to the exporters concerned.

Canadian trade offices are in strategic centres throughout the world. At present there are thirty-two posts, each administered by a Trade Commissioner, and in addition there are fifteen assistants, while eight juniors are in training in Ottawa, for future work abroad. All but three of the fifty-odd Trade Commissioners, assistants and juniors are graduates of Canadian universities, and the Trade Commissioner service is regarded as offering splendid opportunities for young Canadians with university training in arts, commerce, science and economics. The Trade Commissioners are sent abroad for a period of from two to four years, depending upon the climate in which the post is situated. They then return to Canada for an extensive tour of the Dominion. During this furlough they visit the principal cities of the Dominion, interviewing Canadian exporters and say one who may desire first-hand information on the territory covered by the Trade Commissioner. In this way they maintain personal touch with Canadian business men and keep thoroughly familiar with their country's industrial progress.

While the work of Trade Commissioners is primarily concerned with the development of Canadian export trade, they may be called upon at times to do work that is done for other countries by Ambassadors, Consuls and Commercial Attaches.

Unusual Problem For League

May Have To Settle Dispute Over Bond Instruments

Possibility is looming that the League of Nations may have to settle a dispute over instruments of the Smithborough, Ireland, bond. The British Customs authorities have seized the pieces after they had been sent to the parish priest of Roslea, County Fermanagh. This was a sequel to the evidence given in a case heard at Monaghan, from which it appeared that the members of the Smithborough bond had a dispute, and the instruments were taken to the parish priest's home. Part of the parish is in the Free State and part in Northern Ireland. The trustees undertook to take the instruments back to Smithborough and pay the customs duty, but the British customs authorities have them now, and are demanding duty on them, as well as a penalty for taking them into Northern Ireland by an unauthorized route.

Cheap Transportation Method

Washington Farmers Use Pipe Line For Transporting Wheat To Market

Instead of hauling wheat eighteen miles over rough roads, several grain growers in the state of Washington send it from farm to railroad by pipe line. The grain slides through a one-inch galvanized iron pipe direct to the railroad station where loading is done for some consignments, while in other instances wheat is run from the pipe directly into freight cars. Hauling costs about fifteen cents a bushel and the pipe-line method less than two cents.—Popular Mechanics Magazine.

Duke Trial & Force

Believes Confession Of Russian Engineer Was Staged For Effect

A belief that Leonid Ramzin, Russian engineer, whose death sentence was commuted after his conviction with seven others on accusations of plotting against the Soviet regime, is innocent of the charges against him was voiced by R. W. Brooks, of New York, consulting engineer and friend of Ramzin.

Brooks, who was in Europe with Ramzin, while the Russian engineer allegedly negotiated with groups hostile to the Soviet government, declared he saw "never a sign of a plot."

The confession Ramzin made accusing himself of sabotage and of plotting the overthrow of the Soviet Government, as well as the other proceedings at the trial of the eight engineers, was termed the "most naive piece of propaganda I ever encountered," by Brooks. He further declared the confession was arranged by the OGPU, Soviet secret police, as part of a "revolving farce" to strengthen the position of the Stalin dictatorship.

Scientists Make New Discovery

Believe Alaskan Plant Is Pioneer Of All Vegetable Life

The "Wierwort," a small delicate plant found growing in Alaskan lava beds, has been advanced by science as the possible pioneer of all vegetable life.

Striving to solve the riddle of the start of vegetation on the earth's crust in the "Wierwort," an expedition of the National Geographic Society explored the lava wastes of the Alaskan Peninsula last summer and found the Wierwort were thriving where no other plant life could survive.

The preliminary report of the expedition, headed by Dr. Robert F. Griggs, botanist, says the lava areas, created 18 years ago during the first eruption of Katmai volcano, were barren of soil, and there was no apparent trace of nitrogen, necessary for plant growth.

Where the Wierworts have been established long enough to decay and form beginnings of soil, however, other plants were starting, said Griggs.

Started In Hard Luck

Series Of Accidents Marred Wedding In New Jersey

Several things happened before during and after the wedding at Phillipsburg, New Jersey, of Mr. and Mrs. William Koch. They were approximately as follows:

The bridegroom's father fell ill and could not attend.

The flower girl fell from a piano stool and broke her arm.

The bride's mother fell down a flight of steps, receiving severe bruises.

A party of friends drove ahead of the bride's automobile and stopped quickly. There was a collision.

A passing motorist stopped to inquire if his aid was needed. As he stepped from his automobile a fourth car hit him and knocked him down.

Mr. and Mrs. Koch had planned to go to Niagara Falls. They changed their plans and headed for Wilmington, Delaware.

Visitors From Britain

Many British and European Tourists Are Expected To Visit Canada

Within the next two years visits to Canada of British and European tourists, commercial and industrial men will be increased in number and enhanced in importance as a result of the dominating place taken by Canada recently on the European stage of world events. It was stated by William Baird, steamship passenger traffic manager for the Canadian Pacific Railway, who returned on the steamer "Duchess of Richmond," which arrived from Liverpool, England.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is an excellent medicine to destroy worms.

"Let me prove to you that advertising brings results!" "I know," groaned the manufacturer. "Yesterday I advertised for a night watchman—last night my shop was broken into."

Minard's Liniment for Frost Bites.

Felt Tired Out All Day

Could Not Sleep at Night

Mrs. Adamson Lalonde, 3461 St. James St., Montreal, Que., writes:—"After a spell of the grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

Canadian Copper

Production Of Refined Copper Greater Than Domestic Demand

The proposal in Washington that a duty be levied on refined copper brings out the fact that Canada shortly will be producing more of this product than she requires for her own use. For many years the Dominion brought practically all its refined copper from United States. One of the complaints often made was that blister copper from Canadian mines went to United States where it was refined and returned in a much more expensive state for use here.

With the new plant at Copper Cliff which opened last July and the one erected by the Noranda and other interests in Quebec, the Dominion will be a considerable exporter of refined copper if these plants, as well as the one at Trail, B.C., all operate at capacity. It is estimated Canada uses 50,000 tons of copper a year. The total production of which the plants would be capable would be in the neighborhood of 200,000 tons.

At present there is a bounty of one-half cent a pound paid by the Dominion Government on copper refined in Canada from Canadian ore and used in Canadian manufacture. There is also a tariff against certain types of bar metals.

Simple and Sure. — Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain, and unmistakable that they are readily understood by young or old.

Ancient Pottery Found

Particles of pottery, arrow heads, shells, grinding stones and rocks of unusual formation have been found in an ancient mound on the banks of Cache Creek, near Lawton, Oklahoma. Practically every rock found appeared as if it had been in a fire. Edges of the stones are unusually sharp. Near the mound bones of some prehistoric animals were found recently.

The color orange is frequently used in marking trails because it can be seen well against the snow.

Costly Wedding Gift

For Noted Aviator

Kingstford-Smith Receives Silver Cutlery Service From Oakland, California

Among the costly presents for the wedding of Wing Commander Charles Kingstford-Smith and Miss Mary Powell, which occurred at Melbourne, Australia, Dec. 10, is a solid silver cutlery service in beautiful cabinet of bird's eye maple, presented by residents of Oakland, California.

It was at Oakland that the famous aviator began his circumnavigation of the globe and trans-Pacific flights, and ended the flight around the world after crossing the Atlantic.

Anthony Cassel Lost when the greatest of all asthma specifics is used, Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Shipments From Via Rail

Manitoba Zinc and Copper Being Exported In Large Quantities

Shipments of blister copper and zinc have been coming through steadily from the Via Rail since operations were commenced in the new smelter there in November, according to T. F. White, superintendent of car service of the Canadian National Railway, who reported that since November 15th, there have been nineteen cars shipped.

It is evident that much of this Manitoba zinc and copper is being exported as 13 of the cars have been billed to the Canadian consignor, Halifax and St. John. Four cars have been shipped to New York and two more to Toronto.

Minard's Liniment aids Sore Feet

Increases In Air Travel

Passenger travel by air between London and Paris has increased from 716 in 1919, to 22,344 in 1929. More than 30,000 passengers are expected to be carried by commercial airplanes over this route during 1930.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, out meats, etc.—order a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh. Delicious Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Mechanization Of Industry And The Part It Plays In Our Industrial Life

In the mechanization of industry, agriculture, and commerce displacing man-power? Ourselves working men?

This challenge, heard before, is uppermost now in debate on unemployment.

Whether labor-saving machinery actually means fewer jobs is debatable. Yet it is worth while to consider the following information, carefully compiled, believed to be authoritative:

In Saskatchewan there are 41,104 farm tractors; practically one for every three farms. In addition to the tractor there is the combine harvester. In 1936 there were 148 combines in Saskatchewan; in 1937, 382; in 1938, 579; and, in 1939, 1,279. Each of these machines will, at a conservative estimate, displace from four to six men.

Figures for Manitoba and Alberta are not available, but it is safe to say that there has been a comparative increase in the use of these machines on the farms in those provinces.

One power shovel today can excavate as much dirt as a city street as it required 300 unskilled laborers to shovel 30 years ago.

Twenty years ago all glass tubes were made by glass blowers. Today one machine makes as many as 400 of them skilled men then. The bottle-making machine increased the output per man from 45 to 950 bottles per hour.

Ten years ago an automatic machine for the making of electric light bulbs was invented which produced 71,000 in 24 hours; formerly one man could make 75 in a day. Recent improvements have increased this productivity that each machine displaces 1,000 workers.

The strip mining of coal has produced a power shovel that lifts a ton at a time, dumps it in cars and returns for a second load in three-quarters of a minute.

A dough-mixer and mix man do the work of 20 laborers.

One girl with a rib-cutting (clothing) machine does the work of 25 cutters; with a button-hole machine that of 40.

The knitting machine enables one man to do the work of 10 shoe-makers; machines now do 90 per cent. of the work of making a shoe.

The carton machine does the work of 10 hand wrappers.

One operator on an open hearth charging machine does the work of 40 workers.

A pig-coating machine with seven operators took the place of 60 workers.

With a cigar-making machine one man does the work of 15.

Two men do the work of eight, helped by an automatic stoker.

An automatic conveyor enables 12 men to do the work of 150.

The Boston and Maine Railway has installed a mechanical device by which two or three men will switch as many cars as 400 previously did about the yard.

The dictaphone makes it possible for two typists to do the work of nine stenographers.

A cheque-writing machine that does the work of six clerks is in successful use. It writes a cheque every minute.

The magnetic crane operated by two men replaces 125.

Twelve men, operating a crane, take the place of 37 in pouring molten metal.

An automatic butter wrapping and card printing machine will wrap in quarter portions and put cartons on more than six tons of butter in eight hours.

In modern steel making eight men turn out 100 tons where formerly they turned out 5½ tons.

A big excavating machine is now at work that will lift 15 tons of earth at a time and carry it a city block or even 5½ ft. to the height of a 15-story building with no other help than two hands to pull levers.

The making of books is now done by machines. In one factory 60,000 are printed, bound and shipped in one day.

The dial telephone reduces the operating force to one-third.

It is estimated that under old hand methods it would require 1,000,000 men to make 10,000 Ford cars in the time now required, and they would cost \$10,000 each.

While the above by no means completes the list of labor-displacing machinery it will give a fair idea of the trend of modern industry, agriculture and commerce.

However, there is another side to the question, this: That somebody must be making all these labor-saving machines. They are made in factories, hundreds and thousands of factories, all giving employment. More than that, they use iron, steel, copper, nickel, paint; make for development of mineral and other industries, give jobs in other trades.

There is the printing trade. Machines now do most of the work, not ordinary type, set up headlines, do most of the old hand-printer's job. Yet, curiously enough, there are more men employed in the printing trades today than ever before, not to mention thousands and thousands making machines for printers. There is the matter of consumption. An automatic machine may make 75,000 electric bulbs in 24 hours, as against 75 by one man twenty years ago; but how many electric bulbs are in use today compared with twenty years ago? And so on and so forth all down the list of commodities. We are using things now, scores and scores of them, which weren't made at all twenty years ago, which gave nobody work.

So, come to think of it, what is called the mechanization of industry may not be such a bad thing. Perhaps if we get back to the stagecoach days of doing things by hand a lot of factories would close down and a lot of people lose their jobs.—Ottawa Journal.

Speedy New York

Automobile traffic in New York is being speeded up by the construction of elevated highways above the streets for fast travel. One such overland lane extends north and south along the Hudson River waterfront where cars can travel at a fast clip without interference from cross traffic.

The practice of mummifying the dead in Egypt probably started as far back as 3500 B.C.

BARONE ENGLISH AVIATRIX

Miss Winifred Spencer, English aviatrix, who was mentioned in connection with a rumor that a woman was about to fly when it crashed, and who has hopped off from Croydon, England, bound for America, via Rome, Catania and Bengasi. Leaving Rome she was forced down in the Mediterranean and swam two miles to shore.

It Pays To Know How

Between From Sale Of Poultry Depends On Proper Feeding

The returns the farmer gets for his poultry now depend directly upon their proper feeding. This includes crate or pen feeding proper killing and careful plucking—appearance and quality must be of the best to bring the "Milk-fed" price premium. The Department of Agriculture through its Publications Branch, is distributing without charge a new pamphlet "Preparing Poultry for Market" (No. 135—N.E.), which deals fully with crate feeding, killing and dressing, and government grades.

Federal Farm Loan Scheme

Two Million Dollars Paid Out To Alberta Farmers This Year

Two million dollars have been paid out to Alberta farmers this year under the Federal Farm Loan scheme, says Hon. J. D. McLean, commissioner. A total of 392 applications were approved by mid-November and this number will likely swell to 600 before the end of the year, according to the commissioner who has been on an inspection trip during the past few weeks, checking at those centres where Provincial and Federal Boards are operating.

"Four Jones is dreadfully nervous about his wife."
"Why, what has she got?"
"The car."

Footprints Of Dinosaurs Are Found Far North In The Foothills of Rocky Mountains

Should Protect Waterfowl

Alarming Decrease In Number Of Ducks and Geese Is Noted

Figures given the other day by Benjamin Lawton, game commissioner for Alberta, indicate that there is an alarming decrease in the number of ducks and geese. Reports from 125 points covering all Alberta confirm the commissioner's statement, 106 stating that fewer ducks had been seen this year. Five reporting no change and only seven announcing an increase. A similar tale comes from the United States. The cause is easy to find. The ducks and geese are being killed by hunters faster than the natural increase. For instance, out of seven million hunters in the United States, who took out licenses, it is estimated 2,000,000 shot waterfowl, with probably another 300,000 in Canada. On this basis, and allowing five birds to each hunter, it develops that 11,000,000 waterfowl were killed this year. This, Mr. Lawton declared, was more than the yearly natural increase. And the decrease, if this rate of slaughter is kept up, will be geometrical progression; in other words, it will not take long for ducks and geese to become as scarce as the old wood pigeon, which now is extinct.—Edmonton Journal.

Decide On Scholarships

Awards In Junior Judging Competition At World's Grains Conference

Scholarships valued from \$200 to \$700 have been decided upon as awards to the five students standing highest in the junior grain judging competitions to be held in connection with the World's Grain Exhibition and Conference to be held at Regina, in 1937, according to announcement made by C. M. Hamilton, chairman of the committee which met at Toronto during the week of the Winter Fair. Originally it was intended to present a valuable trophy to the team securing the highest standing in the inter-college competition. The modified regulations not only make provision for a trophy to the winning team in the inter-college section but in addition scholarships for post graduate courses valued at \$200, \$400, \$600, \$800, and \$700.

Most small birds have high pitched voices.

Far up the Peace River in British Columbia, among the foothills of the Rocky Mountains, C. M. Sternberg, Canadian government paleontologist, has discovered the footprints of dinosaurs, large reptiles that roamed over parts of the North American continent millions of years ago. It is the most northerly point in the world where dinosaurs are known to have existed and their discovery throws considerable new light on the life habits of these prehistoric animals.

More than 400 tracks were found in the rocks made by at least five distinct species of dinosaurs. They range from six inches in length to 25 inches. The largest tracks were made by an animal at least 25 feet long and the smallest by a creature about 12 feet long. Mr. Sternberg prepared moulds of some of the tracks and these show the largest to be practically two feet square and sunk into the rock about seven inches.

Although the whole district was hunted thoroughly no dinosaur eggs were discovered such as Roy Chapman Andrews unearthed in Mongolia some time ago. The Mesozoic eggs were about eight inches long but if an egg could be found of the species leaving the two-foot track it would probably be 10 inches long, Mr. Sternberg said.

The spot where the discovery was made was close to Hudson Hope on the Peace River, about 475 miles north of the international boundary line. The river, at that point, has carved out a deep canyon, leaving bare many layers of rock. When the dinosaur roamed in those parts, the area was a mass of fresh water lakes, probably leading into the huge salt water sea that stretched from the Gulf of Mexico to the Arctic. The Rocky Mountains, at that time, did not exist. The dinosaurs lived on the western side of the island sea, basking in the sub-tropical climate that gripped those latitudes. Fossilized ferns, palms and other sub-tropical plants were found by Mr. Sternberg in the same locality as the dinosaur tracks.

The greatest deposit of dinosaur bones and skeletons in Canada is near the Red Deer River in Alberta. Strangely, enough, although there are plenty of bones there, only one track has been discovered and while there are many tracks in the Peace River district, no bones have been unearthed.

Mr. Sternberg removed the rock containing some of the more perfect tracks for preservation in the National Museum in Ottawa.

Colonization Of Maritime

Desirable Immigration Can Be Absorbed In The East

The Maritime Board of Trade is annual meeting at Moncton, N.B., went on record as favoring the development of immigration and colonization at the present time in Maritime Canada. A resolution passed out that emphasis in immigration had traditionally been placed on the west. The time had come when desirable immigrants could be absorbed profitably in the east, it was stated.

Only those who have nothing to do look upon life as a burden.

Mr. "How charming is that simple dress you are wearing! I have just paid 100 marks for one dress of yours. That is a 'million' price!"
Mr. "That, dear, that is the bill for this dress."—The Constantinian, Leipzig.

MR. AND MRS. TRELLS WITH OFFICIALS OF C.P.R. RAILWAY

When Herman Trells, for the second time, won the world's wheat championship at Chicago, and for the sixth time captured a world's grain championship, he posed in a large group of the women to his wife. In the picture are Mr. and Mrs. Trells in working dress on their farm at Wembley, in the Peace River district. On the right is H. W. Baudy, chairman and president of the Canadian Pacific Railway, and on the left, Mr. Herbert Holt, director of the company, photographed during a visit to the Peace River and its fertile lands 700 miles north of the international boundary. Trells' latest triumph brings to western Canada for the eleventh time in twenty years the world's wheat crown.

WORLD HAPPENINGS BRIEFLY TOLD

Extension of air mail service from St. Paul and Minneapolis to Winnipeg has been set tentatively to begin January 15. The extension will complete an aerial service of 11,000 miles.

Eleven brothers whose ages range from 17 to 42 form a football team which has won six of eight matches played this year in England.

A flat increase of \$180 in the annual salaries of all Dominion Government workers is to be one of the 1931 aims of the Civil Service Association of Ottawa.

Every sixth one of the 22,215 persons arrested in Montreal during the past eleven months were women, according to the annual report of the city police.

If men have to pay poll tax, employed women should pay too, thinks the Chatham city council, for it has drafted a resolution to the Ontario legislature urging the necessary enabling legislation.

A gift of \$1,000 life insurance policy is made to each child born in the new Maplewood Hospital at Malden, Mass. Hospital authorities were of the opinion that the practice was unique in the United States.

Reduction of 50 per cent. in the number of Canadian immigration visas in November as compared with October, is noted in statistics issued by the state department at Washington.

The gross earnings for the Canadian National Railways for the period ending December 7, 1930, were \$3,404,203, as compared with \$4,447,000 for the corresponding period in 1929, a decrease of \$1,042,797.

Since additional revenue is not necessary, the town board of commissioners at Winston, N. Carolina, has decided not to collect taxes this year. Winston, founded in 1766, population 700, operates two farms to support itself.

When East Meets West

Orient Observes Customs Of Sending Out Christmas Cards

That "East is East and West is West" doesn't apply to Christmas cards. There is now not a single country, from Ireland to Patagonia, which hasn't adopted the Christmas-card custom. Extraordinary are some of the cards desired, and side-splitting the wording of many of the orders.

An African chief desired "much Big Number of Christmas cards, to 100, showing White Christian Ladies in their dresses of the Night." He meant to say that he required religious cards with white-robed angels!

One of the queerest orders by a card firm ever recorded was on behalf of a highly-placed Chinese mandarin. Gravelly he examined some choice specimens—upside down—and thus made his selections. Etiquette imposed silence.

Gifts From the Prince

The Prince of Wales celebrates Christmas this year by distributing \$25,000 in cash gifts ranging from \$200 to \$1,250 to men of his acquaintance whom he knows to be hard up, and who will find money the most acceptable present. The checks were sent out by the Prince's treasurer from York House a week before Christmas.

It is almost as easy to find trouble as it is to make excuses.

"I cannot accept you as a husband, but I will be a sister to you."
"Good. When do you think we shall inherit our father's fortune?"
—Don Quixote, Madrid.

W. N. U. 1249

The Christmas Fever

Is Well Worth Catching Says Women Physicians

Christmas fever, unlike most other fevers, favors health according to a women physician writing in a London paper. The premonitory symptoms descend upon us as we hear the strains of the carol singers to remind us of the season of peace and goodwill. Apart from the beneficial emotional reactions that these elevating ideas produce in the individual, this minor community singing plays a part. Its response is an attitude of sympathetic attention and joyous expectation, which heightens the pulse-beat.

This season of good will, jollity, family and friendly reunions has far-reaching effects. All the constructive emotions of love, happiness, and camaraderie possess tonic effects which invigorate the heart, increase the respiration, and so oxidize the blood.

Further, Christmas helps to dispel those ill-humors to which we are all so liable through absence of sun and the dull days. It brings good cheer to body and mind. By helping to counteract depressing influences it lessens the destructive emotions of dulness and despondency and keeps ill-health at bay.

Christmas fever is worth catching!!

Recipes For This Week

(By Betty Barclay)

BEAN MUFFINS

1/2 cup flour.
1/2 teaspoon salt.
1 cup beans.
1/2 cup orange juice.
1/2 teaspoon soda.
1 1/2 tablespoons molasses.
2 tablespoons melted butter.

Sift flour and salt; add beans, orange juice (in which soda has been dissolved and stirred until it begins to froth), molasses, and melted butter. Beat vigorously, and pour quickly into hot, buttered gem-pans, and bake in a hot oven.

FRUIT KISSES

1 egg white.
1/2 cup confectioner's sugar.
1/4 cup almonds, chopped.
1/2 cup dates, pitted and chopped.
1/4 teaspoon vanilla.
Few grains salt.

Shell the almonds. Plunge into boiling water. Rub off skins. Chop. Pit the dates. Chop.

Beat the egg white until stiff. Add sugar gradually, while continuing the beating. Add salt and vanilla. Fold in almonds and dates. Drop from the tip of a teaspoon on a well buttered baking pan. Bake in a slow oven about thirty minutes. Cool for a few moments before removing from pan with a spatula.

Made Turkey Yuletide Dish

King James I. Started the Custom in England

Despite its name, the turkey has nothing to do with Turkey or the Turks. It comes originally from America, and was first raised in a place of honor among Christmas dishes through Scottish influence. Until James I. ascended the throne the chief Yuletide dish was a boar's head, but James hated pork, and English courtiers who wished to retain his favor were obliged to abandon their favorite delicacy and seek a substitute. They were fortunate to find one ready to hand in the turkey, which had been introduced during the sixteenth century and had already attained considerable favor at minor festivities.

Christmas in Canada

In Canada at Christmas They line the street with trees—Christmas trees lit up at night With little balls of colored light As pretty as you please.

The people hurry past you In furry coats and wraps; The sleighs are like a picture-book And all the big policemen look Like Teddy Bears in caps.

So it comes day at Christmas You don't know where to go, Just park your horses up, I beg, And start at once for Canada; You'd like it there, I know.

—Punch

According to recent figures, France has the lowest railway rates of any country in the world.

RED DICTATOR

Joseph Stalin, Red Dictator of Russia, whose evidence broadcast in present trial of eight engineers has aroused strong protest in both England and France. Alleged confessions in Moscow trial implicate these countries in "plans" of an international war against the Soviet.

Cost Of Chinese Civil War

Loss Of Life In One Province Alone Over Four Million

The New York Sun calls attention to the cost of China's civil war in terms of human life. The Province of Hupei is cited as typical. Here statistics show the population to have been diminished by 4,000,000 in three years. This Province has not suffered from famine or pestilence, and there has been no general emigration. In 31 of its counties which lie outside the war zone, there was a normal increase of 1,000,000 in the population. Four million lives, at least, have been wiped out of the remaining forty-seven counties, through war and brigandage. If the figures could be given for the whole of China during this period, in addition to losses by famine and pestilence, they would be appalling.

Place Reserved

Mother (to small daughter doing too well at Christmas dinner): "Remember, Barbara, there is place pudding coming."

Barbara (nervously): "Yes, I know. I'm saving my neck for that!"

An Ancient Custom

The custom of lighting candles at Christmas is an ancient one. According to the old Jews, these candles were to be lighted on Christmas eve, placed on the window sill, and left burning there all night.

SUNDAY SCHOOL LESSON

DECEMBER 21

TIMOTHY—THE INFLUENCE OF HOME TRAINING

Golden Text: "From a babe thou hast known the sacred writings which are able to make thee wise unto salvation through faith which is in Christ Jesus."—2 Timothy 3:15.

Lesson: Acts 18:1-3; Philippians 2:19-22; 2 Timothy 1:1-6; 2:14-16.

Devotional Reading: Proverbs 2:1-6.

Explanations and Comments

The Salutation Of the Second Epistle Of Timothy, 1:1, 2.—Paul begins his letter with a formal salutation: Paul (the writ'g), an apostle of Christ Jesus through the will of God (that is, called of God to be an apostle), according to the promises of the life which is in Christ Jesus (according to the Gospel). "The Gospel in the promise of life in Christ; the life is the end, and Christ is the way." To Timothy (the recipient of the letter), whom Paul delights to call "my beloved child," be grace, mercy, peace, from God the Father and Christ Jesus our Lord. "These blessings are the best we can ask for our dearly beloved friends, that they may have grace to help them in the time of need, and mercy to pardon what is amiss, and we may have peace with God the Father and Christ the Lord."—Matthew Henry.

Paul's Affection For and Exhortation To Timothy, 1:3-6.—Paul thanks God, whom he has served with a pure conscience, that he has unceasingly remembered Timothy in his prayers. "Paul almost forgot himself in his remembrance of others in his prayers. And so it came to pass that the Lord remembered him, and conveyed to him hidden manna and hidden treasures, and Timothy became strong and beautiful before the gaze of his fellow men. He put on the Lord Jesus Christ."—J. H. Jowett.

Paul longs intensely to see Timothy, and he is filled with joy, and he recalls Timothy's tears at their last parting, tears which showed how true was Timothy's affection for him. He thanks God for Timothy's unfeigned faith, which he had inherited from his grandmother Lois and his mother Eunice.

The Home Training Of Timothy In Religion, 3:14, 15.—Paul counsels Timothy to abide in the things he had learned and had been assured of—for they had stood the test of time—and he knew from whom he had learned them, from Paul himself (2:2), and from his mother and grandmother, 1, 2. Paul next reminded him that he had known the sacred writings from a babe; he could not remember the time when he had not known them. It was the Jewish parent's duty to teach his child the Law when in his fifth year. The sacred writings, Paul added, were able to make him wise unto salvation through faith which is in Christ Jesus. "If combined with faith in Christ Jesus."

One of these days we will be looking out farthest north grain fields as so many miles south of the Arctic circle instead of so many north of the United States border.

A Floating Gas Station

Enterprising Man Serves Motor Boats in Geareck Bay, Scotland

An enterprising boat builder and repairer has launched and moored in Geareck Bay, Scotland, a floating filling station, where motor boats of every description can run alongside and have their tanks replenished. The new supply boat is fitted with automatic petrol and oil pumps, similar in every way to an ordinary roadside garage, and marine motorists on the Clyde had the innovation as a welcome labor-saving installation. Already the home station has a floating repair shop which periodically visits the main boating centre, but in the future there is little doubt but that every progressive coast resort will have its row of floating or water-side pumps to keep up with the rapid advance of motor boating.

Church Bells Herald Christmas

Will Ring Even If Building No Longer Stands Says Old Tradition

A very old tradition tells us that wherever a church has once stood on Christmas morning, its bells will ring through the air. It matters not whether it has long ago crumbled to ruins or is buried under decaying snow; on this one day will come the sweet chiming of ghostly bells.

All down the East Coast of England, where the sea washed away so many ancient towns and villages, the fishermen pause on their oars on Christmas morning and listen to the muffled peals of bells under the water, heralding every year the Great Birthday.

A Gigantic Christmas Tree

England's biggest Christmas tree was that at the Crystal Palace, in 1878. It was one hundred and twenty feet high and built up from fifteen hundred small trees fixed to a central stem. From this tree hung a quarter of a million presents, flags and bannons.

In Remembrance

On Christmas Eve each year, a group of New York children go to the cemetery near the chapel of the Intercession on Broadway, and there place a wreath in memory of the poet, Clement Moore, author of "The Night Before Christmas."

Tough For All Concerned

Butcher—Excuse me, madam, but you haven't yet paid me for the turkey you had at Christmas.

Customer—No, my husband sprained his wrist so badly carving it that he hasn't been able to write out your cheque yet.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls, any length, but 24 inches wide only.

LABOR PARTY ESCAPES DEFEAT BY SIX VOTES

London, England.—By the narrow majority of only six votes, Premier Ramsay MacDonald's minority survived a division in the House of Commons.

The vote came on an amendment inserted by the House of Lords in the Expiring Laws Continuance Bill which proposed prolongation of the Dyestuffs Act for another year. The government was anxious to abolish this act upon its normal expiration next month and therefore urged the Commons to reject the Lords' amendment.

By a vote of 244 to 238 the House of Commons did so and the Expiring Laws Bill thus returns to the House of Lords for further consideration.

The fact that the Government was so nearly defeated was largely due to the absence of its usual Liberal support. Analysis of the balloting showed that the Liberals, who hold the balance of power and generally vote with the Laborites were divided into three camps—some voting with the government, some against it and some abstaining.

Mr. MacDonald, Liberal chief, was not in the House when the division was called. About 13 Conservatives were neither in the House nor were paired for the division. Had this party polled its full strength the MacDonald government would have been defeated.

In well-informed circles it was believed that the Lords, specially since the encouragement they received from the narrowness of the government's majority, would insist on their amendment. In that case the government would either have to bow to their wishes, which was considered unlikely, or to run the risk of another division, which might well be even closer than the first.

An alternative would be for the government to throw overboard the whole Expiring Laws Bill. Here Mr. MacDonald is in a difficult position, because the passage of this bill is necessary to secure the continuance of various measures, including the Rent Restrictions Act, which the government is most anxious to preserve.

The situation has thus become one of the most complicated which has arisen in British politics for a long time, not only because it contains the possibilities of unexpected developments from the point of view of party politics but because it may also bring up the old issue of precedence between the House of Lords and the House of Commons in an acute form.

Gold Production Higher

Figures Show Canadian Output Made New Record

Ottawa, Ont.—Gold production in Canada reached a new monthly record for all time in October last, when the total output amounted to 186,370 ounces, according to figures compiled by the Dominion Bureau of Statistics. The bureau's monthly review shows all branches of the Canadian mining industry maintaining high levels of production with the output of the 15 mineral products showing advances over October, 1923.

Unemployment Advertising

Toronto, Ont.—A recommendation that the police department have one man solely for the purpose of scrutinizing all advertisements, and to follow up any that look suspicious, owing to the number of cases of young people being swindled out of their savings by unscrupulous advertisements in the daily press is contained in the presentation of the grand jury in general session made to Judge Widdifield.

Have No Workmen

Boston, Mass.—There are at least 65 towns in Massachusetts which need an unemployment committee or advice on how to handle the unemployment situation. They have no one out of work, they reported to the Massachusetts emergency unemployment committee.

W. N. U. 1924

Delegation Waits On Postmaster-General

Mail Carriers Ask For Improvements In Their Position

Ottawa, Ont.—Representing the Federated Association of Letter Carriers of Canada, a delegation waited on Hon. Arthur Meighen, postmaster-general, to press for improvements in the routine of the mail carriers.

Mr. Meighen promised careful consideration of the requests of the delegation, including the following: Holidays between May and October, rather than in the winter months; increases and improvements in pensions; payment for overtime work and elimination of deliveries on civic holidays; limitation of the weight of the mail carrier's bag to 35 pounds when he leaves the post office; and regulations concerning magazine and newspaper in the mail and the disposal of undelivered letters.

Premier Coming West

Expected To Be In Calgary By New Year's Day

Ottawa, Ont.—Mr. H. H. Bennett will probably spend Christmas in the east and New Year's in the west. Somewhere between these days, possibly at the end of the month in time to be in Calgary on New Year's, the prime minister may speak in Regina.

For years, Premier Bennett has visited his old home and relatives in his native province of New Brunswick, on Christmas, and he will probably do so again in the coming season. On New Year's he will likely be in his western home.

Shipping Fish By Air

New Venture In Northern Saskatchewan Has Been inaugurated

Prince Albert, Sask.—Still "kicking" 600 pounds of whitefish, freshly caught at Lac La Ronge, were loaded here by aeroplane in less than two hours after setting, by the Buhl plane of the Brooks Transportation and Construction Company. This has inaugurated the new fishing venture in northern Saskatchewan. Immediately the cargo was unloaded, Capt. "Buckeye" Buhl's Buhl took off for another load of 1,500 pounds more. The fresh catches are consigned to markets in eastern Canada and in the United States.

Control Of Labor

Series To Tighten Up Laws Governing Employment

Moscow, Russia.—Strict control of labor within the U.S.S.R., was announced by the Central Executive committee of the Union in a decree published here.

During the third year of the five year plan, according to the decree, there will be no changing of jobs by workers, technicians and others except with the formal permission of the authorities. Salaries and wages for each particular job will be the same throughout the nation, thereby eliminating all competition for labor, which was marked last year.

B.C. Leads In Apple Output

Ottawa, Ont.—British Columbia led all the provinces in value of apple production, according to an estimate made recently by the Dominion Bureau of Statistics. The apple crop and value in the three important producing provinces follow: Nova Scotia, 1,000,000 barrels, \$2,750,000; Ontario, 524,000 barrels, \$1,953,000; British Columbia, 4,322,000 boxes, \$5,463,000.

Salmon Treaty May Fail

Seattle, Wash.—Sponsors of the international sockeye salmon treaty between the United States and Canada, headed by E. A. Sims, Port Townsend, forecast its failure. The treaty is dead, so there is no reason now why it should be discussed, said Sims. Sims is a former member of the State Fisheries Board.

Boat Liquefied

Providence, R.I.—The British oil screw boat "Mackinac," registered at St. George, Newfoundland, was captured by a coast guard patrol boat, Tuesday, October 16, with a cargo of liquor of Rahmatt Point, coast guard officials reported.

MENTIONED FOR IMPORTANT POST

Lord Gervill, son of famous English divorce court judge, poet, barrister, soldier and journalist, and colorful figure in British politics, whose name has been mentioned as successor to Lord Irwin, viceroy of India.

SPANISH REVOLT IS BEING KEPT WELL IN HAND

Madrid, Spain.—Widespread strikes with half-a-million men out and repeated riots continued in many parts of Spain; but the attempt to overthrow the monarchy seemed decisively crushed, at least for the time being.

King Alfonso himself continued to dominate the situation, keeping in constant touch with distant cities by telephone and conferring at length with his cabinet ministers. His right hand man, Premier Daza, Berenguer, was put to bed with a severe case of tonsillitis, but his doctors said he would recover with a bit of rest.

Throughout the kingdom the civil authorities had surrendered their powers under martial law and troops were in charge at strategic points. The Foreign Legion came into several cities and the tumultuous cheers with which the people received them was interpreted as an indication that the men in the street are tired of the disorders of the past few weeks.

The artillery held Barcelona, four men were killed in a street fight at Oviedo, and more clashes with the soldiers at Santander, Valencia, Alicante, Isla Cristina, and Huelva, where dock workers refused to unload a fishing smack and its cargo was thrown overboard. There were strikes also at Bilbao and San Sebastian, but both those towns seemed to be calm with the army in control.

The jails are full and batches of prisoners have been locked up in the motion picture houses which have had no audiences for days. It was expected that most of the prisoners would be turned loose soon and that leaders in the unsuccessful revolt would receive nothing heavier than prison sentences from the courts martial which were in session.

Yugoslavia plans to extend its telephone system to cover the country.

Fog Causes Alarm

Population Of Liege Fears Of Recurrence Of Mysterious Epidemic

Liege, Belgium.—Population of the Liege district became highly alarmed at the appearance of a dense fog, fearing a recurrence of the recent mysterious epidemic which killed more than three-score persons.

Many families of Engin, Jemeppe, Ougres and Seraing prepared to move from the valley to the neighboring heights, and those suffering from asthma or other respiratory afflictions hurried especially to evacuate the lower places.

They were all the more anxious to leave since the news spread that post mortem examinations of the previous victims and scientific investigations of the tragedy had not been able to fix definite blame for the deaths.

Spurred by the reappearance of danger, the government rushed the appointment of a special commission which had been decided upon at the recent cabinet meeting.

One reason for fear is the fact that many persons have not recovered from the previous attack. At Engin alone, nearly 100 persons still are under medical attention.

Charge Is Dismissed

Judge Lindsey Is Released By Magistrate As Case Is Closed

New York, N.Y.—Charges against former Judge Ben B. Lindsey of Denver, growing out of his demand for a hearing during services in the Cathedral of St. John the Divine two Sundays ago, faded among the shadows of legal technicalities here.

Magistrate August Dwyer, upholding a demurrer of Arthur Garfield Hays that the original disorderly conduct complaint against his client was defective, ordered a new complaint drawn. He called several times for somebody to step forward and sign it.

Nobody did. Then after rebuking Lindsey for the act which the magistrate said everybody knew about, he slipped his hand upon the bench and announced: "This case is closed."

Study Of Economic Conditions Suggested

Research Council May Be Asked To Make Work Survey

Ottawa, Ont.—The suggestion that a committee of the National Research Council study national and international aspects of matters having a bearing on prevailing economic conditions was held out by Tom Moore, president of the Trades and Labor Congress of Canada. In an address to Ottawa service clubs, the Labor Union leader remarked that the Dominion is without a co-ordinated study of this sort. In this regard, it was important that the country keep abreast of the times.

Take New Post In January

Kemptville, Ont.—Hon. Howard G. Ferguson, former premier of Ontario, will proceed to London, England, to assume his duties as Canadian high commissioner about the middle of January in all likelihood. That is Mr. Ferguson's present intention, expressed to the Canadian Press.

HEPBURN TO LEAD ONTARIO LIBERAL PARTY

Toronto, Ont.—Mitchell Frederick Hepburn, member of the House of Commons for Elgin West, was elected leader of the Liberal party in Ontario.

Only one ballot was necessary in the straight contest between Mr. Hepburn and Elmore Philpott, Toronto newspaperman. Although the results of the division were not announced, it was understood Mr. Hepburn received 227 votes and Mr. Philpott, 97. There were 227 delegates at the convention.

Six names were put forward when nominations were asked for at the opening, but the contest quickly narrowed down to a straight fight between the aggressive Western Ontario parliamentarian and Philpott, W. E. Murphy, M.C., and Arthur W. Rowbeck, well-known Toronto lawyers, and Hon. Peter Hansen, former Dominion Minister of Labor, quickly withdrew. They were followed by W. E. H. Maclellan, K.C., of Ottawa, for more than seven years. House leader of the party in the legislature, who declared he wanted to give the other fellow a chance. In withdrawing, Mr. Maclellan outlived the two men still in the running.

The new leader said he had no immediate statement to make regarding leaving the federal fold. He was unable to say whether he would continue to represent West Elgin in the House of Commons until a provincial general election is held or whether he could contest a by-election. From other sources, and quite reliable, it was learned the chances were Mr. Hepburn would maintain a remote control over the Liberal members of the legislature and continue in the federal fold for possibly one or two sessions.

Selection of a federal member as provincial chief will necessitate the appointment of a House leader in the legislature, and it is quite probable Mr. Maclellan will continue this role.

Governments Plan Reward For Aviator

Meritorious Of Pilot Whose Will Be Recognized

Victoria, B.C.—The provincial government in co-operation with the Federal Government, will recognize in tangible form the heroism of Pilot Everett L. Wason, who recently rescued two members of the lost Burke party in Northern British Columbia. It was stated here. A joint special grant will be made to Joe Walsh, the prospector who assisted Mr. Wason in his rescue work.

Grain Marketings Increase

C.N.R. Shows Highly Satisfactory Increase Over Figures For 1923

Winnipeg, Man.—Grain marketing along the lines of the Canadian National Railways show a highly satisfactory increase over the figures of 1923, according to a statement issued by T. F. White, superintendent of car service. This year 122,972,000 bushels have been marketed since August 1, while over the same period in 1923 only 94,504,800 bushels were marketed. An increase of more than 28,000,000 bushels is noted.

Submarine Collide

Gibraltar.—The British submarine "Panda" and "Proton" collided while entering the Bay of Gibraltar. It may require drydocking to ascertain how badly they were damaged. With the other submarines of the "F" class, they were bound for Hong Kong to join a squadron for suppression of piracy in Chinese waters.

Prime Albert Wants Smokey

Prince Albert.—Conservative work of Prime Albert constituency have decided to petition Premier H. H. Bennett regarding that the present Saskatchewan vacancy in the Senate be filled by a man from this constituency. No name was suggested in the resolution.

A bill to prohibit the export, in whole or in part, of historic monuments or buildings has been presented to the English Parliament.

NOTICE!

Mr Geo J. Bryan, barrister, is spending the holidays in Calgary, and will not return until the New Year. In the meantime, his office here will be open.

Before the P. M.

Also Pasomko, a Mewasie resident, was fined \$900 and costs for being in possession of liquor which had not been purchased from a Government vendor.

"Mike," a resident of Spruce Grove, was fined \$10 and costs for having threatened Nels Barkhart. Another resident of the Grove paid \$1 costs for alleged disorderly conduct.

The Tomahawk truck drivers' cases come up Tuesday next.

Mike Says:

It seems to me the chief trouble at present is a shortage of cash and a surplus of prophets.

'Twas a great Christmas! If I sell all my presents, I could nearly buy a car license, due in six more days.

Hockey News.

The hockey season opened last week with the game between our Senior team and Moriaville. The latter team was pretty well drilled, having come over from last season practically intact. At that, the local team was pretty well up in the collar, and did not let the visitors get away with too much. For an exhibition game the playing was good and the score a close one.

Sunday afternoon seen the opening game of the new 4 club Senior League, when the Pene Miners from Namayn crossed sticks with Miller's Pets at Stony Plain's rink. This was one of the best games seen here in a long time, and real hockey was played. After a hotly contested three-period game and 10 minutes overtime, the game was called a draw. Namayn's goalie had a busy 70 minutes keeping the puck out of his net. Each team gets 1 point to its credit.

St. Albert is the next team to meet our Senior hockey-ists, the event to be played here on Sunday next.

Stony Plain and District

Mr and Mrs Frank Wall of Calgary are visiting, this week, in Stony with their daughter Mrs G. Spike, and Mr G. Spike.

Visitors from Jasper, over the holiday, were Mr and Mrs Geo Pugh, who visited with the latter's mother, Mrs Gates, and Mr T. J. Harwick.

The arrivals in Stony this week include Miss Quennie Donaldson, Eskine; Miss A. Foerster, Camrose; V. Pailer, Onaway; M. Donaldson, Farn; Art Mundt and G. Davis, Peace River.

Mr H. T. Walton is wearing an abrasion on the right temple and a few other souvenir bruises at present, the result of having his coach overturn near Ings corner, while motor ing back to Stony on Monday last.

The Junior hockey game billed here for Tuesday did not materialize, as Wintersburn's team was unable to come.

Holders of big game licenses will kindly note that these are now returnable to the Game Commissioner, Edmonton, or to your local game guardian.

If you are having visitors during the present holidays, or are visiting away yourself, drop in at The Sun office and tell us about it, or send the item thru the postoffice. Remember one half the world is interested in the other half's movements.

Fifteen-cent haircuts are on the way. One barber in town is said to be giving a haircut, a shave, hair tonic and a neck shave, all for the sum of forty cents. At that, this isn't so cheap, as it takes 1 1/2 bu. of No. 3 wheat at present quotations to buy this bargain combination.

The secretary of the Board of Trade has received a message from Max Tiklich, in Vancouver, inquiring as to the chances for opening a barber shop in Stony. When interviewed, the Pres. of the barbers' union said, "the only opening for another barber in Stony was on the Broad line."

Spruce Grove News

A big delegation from the Spruce Grove district was present on Friday evening at the annual meeting in Memorial hall, Edmonton, of the Oldtimers' Assoc. Mr Dan Brax, one of the oldtimers of the Grove district, was elected to the executive committee. Following the meeting, dancing was participated in by all present.

Butcher McKean regrets that the supply of his calendar for 1931 were taken so quickly. A thousand had been ordered, but only half this number has arrived to date. Those who luckily got one are praising them as a work of art—the main theme of the picture being a showing of the beautiful Loch Lomond, with the Laird of Skibo in the foreground.

The Christmas holiday at the Grove was spent in a very quiet manner, quite a few motoring in to the City after having eaten their Christmas dinners.

There is considerable discussion going on at present among farmers in the district about the price of wheat, particularly by those who attended the Pool meeting here last week and heard the loud howls about making a contribution to the Pool by those who participated in the payments for their 1929 crop.

At the services of the United church on Sunday Mr Sherwin sang a solo, and Mrs Sherwin and Messrs Sherwin and Plummer sang "Silent Night, Holy Night."

Mr H. Loeblich Jr. has joined the staff at the local hotel.

Why Suffer from Headaches,

Pain in and around the Eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Fifteen dollars examination fee. That is far cheaper than paying \$5 to \$10 for an examination and then glasses at \$15 to \$25; but you cannot see the logic of this; you need more than glasses.

Here and There

Canada seems more important than ever in the trans-Pacific carrying trade, since the Empress of Japan sailed from Vancouver recently with a total of 951 passengers for Honolulu and the West Coast, setting a record for the Canadian Pacific white Empress for the year and amply justifying the company's expenditure of \$2,500,000 in a ship which is the largest and fastest on the Pacific.

Emergency work in the west on Canada's Pacific Railway construction this fall and winter represents expenditure of more than half a million dollars in alleviation of unemployment. The work is being undertaken in the provinces of Saskatchewan and Alberta. Similar relief in the East is seen in the fact that 150 former employees are now being taken on at the Angus Shops, Montreal, where they will work on repairs to passenger cars.

Based on her 30,000-mile annual Canadian Pacific cruise around the world which will last four and a half months, the S.S. Empress of Australia sailed on the first lap of her voyage from New York December 1. She will touch at 31 ports and places in 34 countries during the trip and will be at sea 75 days and in port 50 days. She sailed with a capacity passenger list.

Patrons of the Royal York Hotel, Toronto, will enjoy the finest hotel at the coming Christmas and New Year festivities possible to procure as a result of the purchase by the hotel management of 50 prize animals at the Royal Winter Fair held at Toronto recently.

A tablet has been erected at Windsor, N. S., by the Canadian Government commemorating the founding of King's College in 1773, the first university in Canada and the oldest in the British overseas dominions.

Total production of honey this year in Saskatchewan will be over 700,000 pounds, an increase of about 300,000 pounds over the output in 1929. Since 1927 the number of bee colonies in Saskatchewan has increased 215 per cent.

At the Ideal Homes Exhibition recently held in Edinburgh, Scotland, the Canadian exhibit was awarded the gold medal for general excellence. This award was made in the face of keen competition from more than 100 exhibitors from all parts of the British Empire.

A preliminary report on Canadian tobacco production shows the 1929 area at 41,331 acres and the production at 34,712,790 pounds, as compared with last year's area of 37,700 acres with an output of 29,784,000 pounds. In 1929 Ontario harvested 24,978,000 pounds from 22,170 acres; Quebec had 4,450,000 pounds from 2,000 acres and British Columbia 144,790 pounds from 221 acres.

Gross value of the manufactured products of the pulp and paper industry in Canada for 1929 was \$243,978,781. This does not include pulpwood nor the pulp made in combined pulp and paper mills for their own use in making paper.

CHAPTER VII.—Continued.

Her voice, startled, she stopped abruptly in an effort to control it.

"What's that you're wondering?" said the old man quietly. "Better tell Uncle Sam your troubles. Get 'em off your chest and you'll feel better."

Gay laughed shakily.

"I—I haven't any real troubles, Uncle Sam. They're all imaginary. Nick's a darling. I wouldn't change him for—the President of the United States! But sometimes I wonder where he'd be if—if he hadn't asked me to marry him. Not in Baker'sville surely. Except for our two precious weeks in camp each year, he hasn't been away a day since we came back from our honeymoon."

"Well," prodded the old man, seeing that the story was not half told, "he's been off full as much as you have, hasn't he?"

"That's different," she answered quickly. "I love to roam, but I love my own hearthstone best. I'm not the home-bird tramp that Nick is. The other night" (she put her hand to her throat as if something hurt her), "we were sitting together on the porch, and our new neighbor began to sing. Her voice is—beautiful. I don't know what she was singing, but it had a Gypsy lilt to it that would have stirred anyone, on a spring night. Nick didn't say one word, but I knew how it made him feel. He wanted to run, run, run, to the ends of the earth. He wanted the freedom he used to talk about. I—I almost hated the woman for singing that way on such a night. It seemed as if she were singing straight at Nick. I—I almost believe she was."

"When she stopped he got up without a word and we went inside, but his hands trembled when he turned on the lights. And I couldn't say anything. Uncle Sam, I'd have cried if I'd spoken; and there didn't seem to be anything to say. Then, suddenly he turned to me and smiled. It broke my heart—that smile—because I knew how he was feeling. But he came close and put his hand under my chin and lifted up my face so he could look straight at me."

"Gay," he said, "you've got the most wonderful eyes in the world. They'd drag a man right back from the jaws of Hades. I hope you'll be on hand if ever I'm tempted to commit a crime!"

"He was speaking lightly to dispel the atmosphere that song had created; but when he kissed me I—I sort of gave out."

"Gave out?" questioned the old man as she paused. "Gave out? What you mean, Gay?"

"I mean I—cried. Oh, Uncle Sam, I don't know why I'm telling you all this! I wouldn't tell another soul in the whole world; but you're the nearest thing to a family that we have. I don't cry easily, you know, or often; that's why I cry so hard when I do cry. I haven't been feeling very well, and I was sort of discouraged. Anyway, once I got going I couldn't stop. Nick was frightened, poor dear! He wouldn't let me out of his arms till

midnight. It might have cleared the atmosphere, I think, but it didn't. I can't help feeling that something dreadful is hanging over us—the way you feel when an awful thunder storm is in the air."

Simon Bartlett moved his hand to his ring collar, which had suddenly become oppressive.

"There ain't nothing hanging over you at all, dearie," he said quietly. "What you need is a change of air. After the middle of May Baker'sville ain't a fit place for a pole cat to reside in, to say nothing of human beings. If I hadn't carried my umbrella I'd ha' got a case of sunstroke, just walking from the depot. The heat's got on your nerves, as they say—that and havin' two babies pretty close together. I ain't lived seventy-four years for nothin'. Gay, and I'd bet my last dollar they're not a thing alike you bet what I said. I don't need to tell you that Nick's a good boy—a damn good boy. If he does hanker now and then to cut an' run. Guess you've had the same feelin' yourself, only a woman gets a mile more comfort out of her babies. Now I'm goin' to my bottle to Soney, and take me down to the First National Bank. If you'll put him in his go-cart I'd admire to push him along down town. Makes me feel like a genuine granddaddy; and it'll give you a chance to rest up some before dinner."

"He ought to go bye-bye," said Gay smiling, "but he'll be delighted at an excuse not to! You're sure he won't be a bother, Uncle Sam?"

"I ain't ever seen him this time yet, Gay, when I'd call a little child a bother. If John Maxwell can't talk business with a baby in the room, he ain't the granddaddy I take him for; but if I find I'm mistaken I'll put Soney in the cage along o' his daddy."

Gay winced, and said, with a smile at her own foolishness: "I know it's ridiculous, but when anyone mentions that cage it makes me shiver. I don't like to see wild things in cages, and

Simon chuckled.

"That's a fine thing to say about a steady boy like Nick. Well! He must ha' changed some since last I see him. But they dearie, I know what you mean. A cage don't seem no ways suitable for Nick. But as long as he holds the key himself there's no need to worry; and if I know Nick he wouldn't swap that cage for the wildest sort o' freedom that didn't include his wife and babies."

"No," said Gay loyally, and her own eyes brightened. "I don't believe he would."

"Now you go lay down," commanded the old man as he departed, the huge umbrella in one hand, the other resting on the handle of Soney's go-cart. "Don't you bother with me but vintage this noon. I'll stop to the drug store and carry up some ice cream if they'll pack it so it won't be ruined by the time we get here. You just take things easy. Nick an' me'll do up the dinner dishes. I'm not company, and you ain't got a thing to worry over."

"You're a big comfort, Uncle Sam."

Gay squeezed his hand, and stooped to kiss her little boy. She smiled, and her heart lightened as the grotesque figure of the old man moved down the street, the umbrella sheltering both him and Soney, while he steered the go-cart skilfully with one hand.

There was something so queer about Uncle Sam, she thought. Morbid ideas couldn't live in the same space with him. Perhaps, as he said, her foreboding thoughts had been due to tired nerves. At any rate, she would take his advice and rest for an hour while the baby slept.

Soney enjoyed that ride down Main Street. Nick might long for the untamed wilderness, but asphaltum held more fascination for his son. Proudly he pointed out each passing wonder, and listened anxiously to Uncle Sam's wise comments. But as they reached the bank his attention left the street, and he tugged impatiently at the strap that held him.

"Daddy?" he questioned, and wrinkled so eagerly that the old man's fingers had hard work loosening the strap.

"Mind on, Soney. You just sit still till Uncle Sam can pry you loose. My! won't Daddy be tickled? Now, now, you'll reach your degree in that door. Better let Uncle Sam carry you. He quiet now, and we'll give Daddy a surprise."

But as they pushed back the door it was evident that Nick was busy. He was talking with a lady—a lady

in a soft blue gown whose wonderful rippling hair caught every Simon Bartlett's wild attention. Soney, anxious to find his father occupied with someone else, remained quite silent for a moment, his baby hand tightly clutching at Uncle Sam's over-ventilated collar.

Whatever the lady's business, thought Simon steadily. Nick was absorbed—the man absorbed to have noticed the opening door. Then suddenly the boy could restrain himself no longer. He moved uneasily and cried, his childish voice echoing through every corner of the room: "Daddy, it's me! I've come!"

Nick started, and his face broke into a smile of welcome. With one exception everyone in the room smiled, too. The exception was, of course, the lady in blue, who, at the first note of Soney's voice had been forgotten. Nick did not see that with an impatient shrug she had slipped away, because at just that moment he was receiving a hot and affectionate embrace from his little boy.

But neither the shrug nor the impulsive was lost on Simon Bartlett. As he grasped Nick's hand he thought: "I'll bet my Sunday-go-to-meetin' hat that she's the party who upset Nick by singin' that cursed song." Aloud he said: "Well, boy, it's good to see you. I got to have a few words with John Maxwell. Will I leave Soney here or take him along too?"

"Leave him with me," said Nick. "He likes this cage of mine. Sometimes we're careless, and sometimes hears. It doesn't make much difference, does it, old boy?"

"Let's be men-cows," said Soney gleefully; and Nick agreed with a grin.

(To Be Continued.)

War Is a Crime

No More Executable Than Murder
Says Norway's Premier

Frank K. Kellogg, former United States secretary of state and Dr. N. H. Soderstrom, archbishop of Upsala, received the peace awards for 1938 and 1939.

Premier McWhinney, in an address praising the work of Mr. Kellogg and Dr. Soderstrom, said the League of Nations is the most powerful institute for promoting peace which the world has developed.

"It is not enough," said he, "to declare war a crime. We must recognize that the murder of thousands of men to settle an international dispute is no more executable than the murder of one man."

Mr. Kellogg expressed deep appreciation of the honor. He regretted, he said, to hear many voices raised in predictions of another war.

Western civilization, said he, could not survive another such conflict, but he declared he saw nothing to indicate another war in the offing.

Worms however generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the harmful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Muscular Answered Men

Arranged Operation For Girl Who Was Born Blind

Maria Russell's life dream has come true, because she had the courage to write a letter to Muscular, Marie, who is 25 years old, was born blind, but to offset her affliction she has a natural gift for the piano.

An operation would give her her sight, but her family, who are poor working people, could not afford to buy her a piano. She wrote the Duce, asking his aid.

In return, Muscular sent her money for the operation, which was successful, and more to enable her to buy the piano she had always wanted.

Douglas' Egyptian Liniment is a quick, certain remedy for Head, Neck or Throat. Four or five applications are usually enough.

Good Honey Crop

The Southern Alberta honey crop this year will reach at least 750,000 pounds, or almost double what it was a few years ago, according to the latest advice. The quality this year is said to be very high.

Moore's Liniment for all Pains.

New Towns Growing

Milton is Youngest and Cheapest To Live In Saskatchewan

The new town of Milton, located at the end of the steel of the Brandon-Milton branch of the C.P.R., is now the youngest and newest town in Saskatchewan. The townsite was surveyed only a short time ago, yet it has two stores, one luncheon yard, three implement dealers, two elevators, one hotel, post hall and meat market, municipal hall, two blacksmith shops, two garages, one all station and an up-to-date post office.

Milton has a large territory of a splendidly suited farming country, which contains some of the best wheat land in southern Saskatchewan. It is the first town on this side of the border on Highway No. 2 and the best town between Regina and the boundary line. The government land to about 310,000 acres station near here for lack of business in that line and there is now no police within 25 miles, nor need for one.

The farmers in this territory are exceptionally wealthy and they nearly all own their own farms. Very few even have loans against their land. They're practically all engaged in mixed farming and keep a good deal of stock.

THE LITTLE LADDER

All Jockey models are created and sketched in Paris and the patterns are made in New York.

What is small daughter's figure—for she has a figure even at this early age. Some small girls are instantly better suited in yoked frocks. A belted or belted style suits others better.

Today's versatile little dress can be worn either belted or loose. It is simple, yet distinguished for its charming and different yokes.

Also any material suitable to a child can be used, including cotton, ginghams, wool, and cotton weaves, rayons, challis and other thin materials or washing silks.

French knots or tiny spots are a pretty yoke decoration. For a dressier afternoon model a tiny pleated self trim outlining the yoke and cuffs is charming. For the simpler model, contrasting binding at these points is also most attractive.

This pattern may be obtained in sizes 4, 5 and 6 years. It is ready for immediate delivery. It is hand cut. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Little Helps For This Week

"While I live will I praise On Lord: I will sing praises unto my God while I have any being."—Psalm cxviii. 1.

Al, no! the truest worship I've not

In fact and right; spending longest days

Only to lift the tribute of a sigh.

Given God no glory, come with gladness hymns.

All ye who truly love the Lord most high.

For perfect prayer is found in perfect praise.

Oh, then, I were a nightingale, I would do the part of a nightingale. If I were a swan, I would do like a swan. But now I am a rational creature, and I ought to praise God; this is my work. I do it; nor will I desert this post so long as I am allowed to keep it, and I exhort you to join in this same song.—Epictetus.

Where Gold Comes From

Largest Production Of Gold In Canada Made In 1939

The largest production of gold recorded in Canada was made in 1939 according to a report just issued by the Canadian Government Bureau of Statistics. The total output last year of the precious metal from all sources in Canada amounted to 1,928,305 ounces, valued at \$29,241,642, compared with a production of 1,880,592 ounces valued at \$28,952,895 in 1938. Six provinces of Canada and the Yukon Territory produced gold in 1939 as follows: Ontario, 1,032,287 ounces; British Columbia, 154,394 ounces; Quebec, 20,786 ounces; Yukon Territory, 66,693 ounces; Manitoba, 22,444 ounces; Nova Scotia, 2,687 ounces; and Alberta, 25 ounces. In Ontario, the Porcupine and Kirkland Lake areas contributed practically the whole of the output of the province.

Perlan Balm is irreplaceable. Fragrant as summer flowers. Cool as a mountain spring. Wonderfully invigorating. Softens and whitens the hands. Makes skin soft-textured and youthful. Used by women as a powder base and as a precious aid to lovely complexion. Used by men as an effective hair restorative or shaving lotion. And for children, nothing soothes and protects their tender skin like the delicately cool Perlan Balm.

Pompeii Yields More Treasures

Ancient Roman Gold Objects Found After Being Buried Eighteen Centuries

Spurred on by discovery of a by-tune in ancient Roman gold objects, buried for more than eighteen centuries under the lava of old Vesuvius, archaeologists are pushing on to additional finds.

One of them is a polychromatic statue of Apollo and another a fresco of surprising beauty. Both of them were in the same ancient house at No. 1, via Abbandano, hidden A.D. 79, when Vesuvius destroyed this ancient city.

Believe your Gold with Moore's Liniment.

Proved Her Belief

The reporter was interviewing the famous film actress.

"I gather from what you have told me that you believe in liniments?"

"I certainly do," replied the actress. "Personally, I have been ill, and am going to be—again."

Anderson—Werner
A wedding of interest to residents of Stony Plain took place in Edmonton Tuesday evening, the 23d, when Miss Queenie Werner (daughter of Mr and Mrs Paul Werner) was united in marriage to Mr Dave Anderson of Edmonton. The ceremony took place at the Parsonage of Grace English Lutheran church, 106th St., and was performed by the pastor Rev H J Boettcher.

The bride was attended by Miss Amy Foerster as bridesmaid; while Mr. Thos Wilkin of Edmonton was groomsmen. The wedding was a quiet affair, none but the immediate relatives of the contracting parties being present. After the ceremony the bridal party motored to the King Edward rose room, where they all sat down to a sumptuous repast.

On the return from their honeymoon spent at the Coast the happy couple will take up their residence in Edmonton.

Accident to Youngster.

A sad accident occurred during the afternoon recess on Friday at Blueberry school. As young Walter Steffler, son of Mr Dan Steffler of Heath erdown, was motoring past the schoolhouse, Jimmie, the young son of Mr J W Wilkins, who was coasting on his sled down a slight incline, came thro the school gate onto the road, in the path of the oncoming car.

Young Mr Steffler did everything possible to avert an accident, but was unable to do so owing to the slippery condition of the road. His car struck the boy, inflicting what is feared may be serious injuries.

Dr Walton was summoned and alleviated the youth's sufferings, after which the youth was removed to the Misericordia hospital.

The Christmas Cantata.

Moose hall was filled to capacity Sunday evening, on the occasion of the sacred Cantata being rendered by the United Sunday school scholars, under the direction of the superintendent Mrs. Gates. Those fortunate enough to be present heard one of the nicest presentations given in Stony in a long time. The work of the performers showed the care with which they had been trained, and carried out the various parts of their program with clock-like precision. "The Herald Angels" will long be remembered at Christmasides in Stony.

Junior Hockey.

The result of the Junior's trip to Winterburn on Sunday proved to be a repetition of their last year's experience at that rink, with the final score the same—5 to 0 against the Stonys. In most games the losers alibi is "a combination of adverse circumstances"; but in this instance the consensus of opinion among the spectators and players alike puts the onus on the Junior's absent-minded goalkeeper. Every time Bill got near the puck the subsequent proceedings redounded to the benefit of Winterburn team.

With the Carlers
A meeting was held at the curling rink Dec. 18th. The meeting was well attended and arrangements made for the president and vice president draw; the losing side to put on a banquet for the benefit of the club. The rinks to take part, with personnel, are as follows:

—for the President—
St. J McCullo, G Oppertshausen, I. Kowensky, G R Ross
St: F W Yeats, L Elliot, I Peters
F L Tibbo
St. Lewis, J Malloch, J P Ganson
J F Clarke

St. Grace Grove rink — Connolly
Furber, Elder, R Sherwin

—For Vice President—
St. Dr Outway, W Robertson, E Phigson, H Kendra
Skip O G Wadel, H Oppertshausen
K A Ulmer, W Comins
Skip R Wood, M East, J Scholtz
Mackenzie
Skip H Miller, A R Michael, Geo J Bryan, A Willis

The following resolution carried —That the club hold a points competition during the year; also that the points be kept of each player throught the year on regular draws only; prizes to be given to the first four in highest number of points.

Boring Under The Heart Of A City
Excavating a surface line at present connecting the main yards on Burrard Inlet, where the trans-Pacific lines berth, with the storage yards and industrial sidings at False Creek, Vancouver, B.C., the Canadian Pacific Railway is just about to provide work for 300 men, throughout the winter by beginning work on a great tunnel, nearly a mile long. Seven cross-town streets will be free and much valuable building-land made available by the disappearance of the ground-level line, in addition to which faster connection will be made for the railway between the waterfront and the False Creek area. It is calculated that excavation of 40,000 cubic yards of soil will be necessitated by the new tunnel, which will be 33 1/2 feet high and vary from 15 to 18 feet in width. The accompanying drawing shows details of the project, the heavy dotted line being the bore of the tunnel through the heart of the city. Inset the new Canadian Pacific record-breaking liner "Empress of Japan"; above, downtown Vancouver, showing (left) the new Marine building, and (right) the Royal Bank building; below: a close-up of locomotive 5419 one of the new giants operating in British Columbia.
